

SOFIA UNDERGROUND PERFORMANCE ART FESTIVAL ИЗТОЧНИЯТ ВЪПРОС 18 __ 21 IV 2019

Sofia Underground 2019 __ Източният въпрос

Тематичната рамка на настоящото издание на фестивала е създадена от основателя му Руен Руенов през юни 2011. Посвещаваме го на неговата памет, напомняйки за вечния път.

Източният въпрос в изкуството е тема за отношенията между Изтока и Запада в сложната им игра на културна себе/де/ре_колонизация. В контекста на съвременния културен маркетинг, в неговата тъкан, това взаимодействие придобива все по_абстрактен характер. Sofia Underground 2019 предлага терен и селекция в опит да го фиксира във видима форма. Важно е да се отбележи, че проблематичната среща на Изтока и Запада намира своето отражение в развитието на нови видове художествено изразяване, точно като пърформанса.

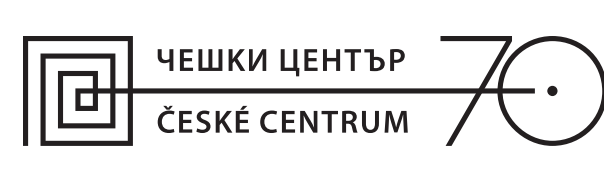

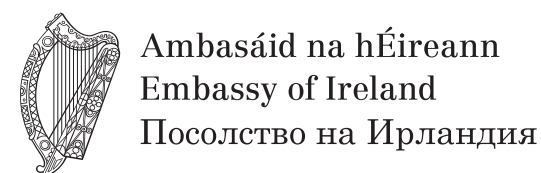

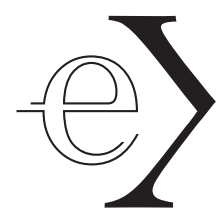

Източният въпрос е колективен опит на сътрудничество в рефлексия по темата около това какво представляват понятията като художествен акт, художествен жест и обществено ангажирано изкуство, когато се поставят в контекста на общества доминирани от източни възгледи, по отношение на обществена структура и култура.

Sofia Underground 2019 __ the Eastern Question

The thematic frame for this edition of the festival was created by its founder Ruen Ruenov in June 2011. It is dedicated to his memory, reminding about the perpetual quest.

The Eastern Question in art is a case about the West_East relations in an intricate play of cultural self/de/re_colonization. It has become an abstract dimension of art in the context of the contemporary cultural marketing fabric. This dimension is rendered visible with the type of art and selection of the Sofia Underground in 2019. It is essential to mention, that the problematic meeting of the East and the West sets in dramatic manner even the adoption of new kinds of artistic expressions. Performance is, naturally, one of them.

The Eastern Question is a collective and collaborative attempt to reflect the topic: what do concepts like artistic action, artistic gesture and socially engaged art represent when they find themselves in the context of societies dominated by Eastern views according to societal structure and culture.
